

Reducers & Gaskets

Why choose PipesNZ

Gaskets & Studding

Gaskets **Studbar** **B8M S/S**
B7 Black **B7 Gold Passivated** **Nuts 2H**

A full range of Garlock standard gasket sizes are available ex stock, custom cut gaskets are available to order. Specialist gaskets, o rings, copper gaskets and sealants are available on request.

Studbar can be cut to size and gold passivated Available in a variety of lengths and diameters up to 2", UNC and UN8 threads, several grades of material from B7 to 8H, finishes available include passivized zinc, galvanising, plain, PTFE etc. Specialist lengths and surface finishes available as, custom 'cut to order' on request. All material is certified and meets the most exacting technical standards.

Great choice of pipes and fittings
 PipesNZ stocks a large range of ERW, SMLS, SSAW pipe and pressure pipe fittings. All new pipes and fittings are supported by full documentation and mill certificates with ANSI, ASME, API, BS and AS/NZS 1163 standards available. Specialist pipes such as coated and very large diameter SSAW are offered to order.

Prompt Delivery
 With warehouses in Auckland, New Plymouth and Christchurch, PipesNZ is able to supply orders promptly and minimise freight costs.

Cut to length
 Pipes NZ can customise your pipe to length by cutting or joining, saving time on site.

Sourcing specialist pipe and fittings
 We also source and supply pipe and fittings custom made to your requirements. By direct sourcing to the steel mills we are able to shorten lead times and offer smaller minimum order quantities.

Elbows

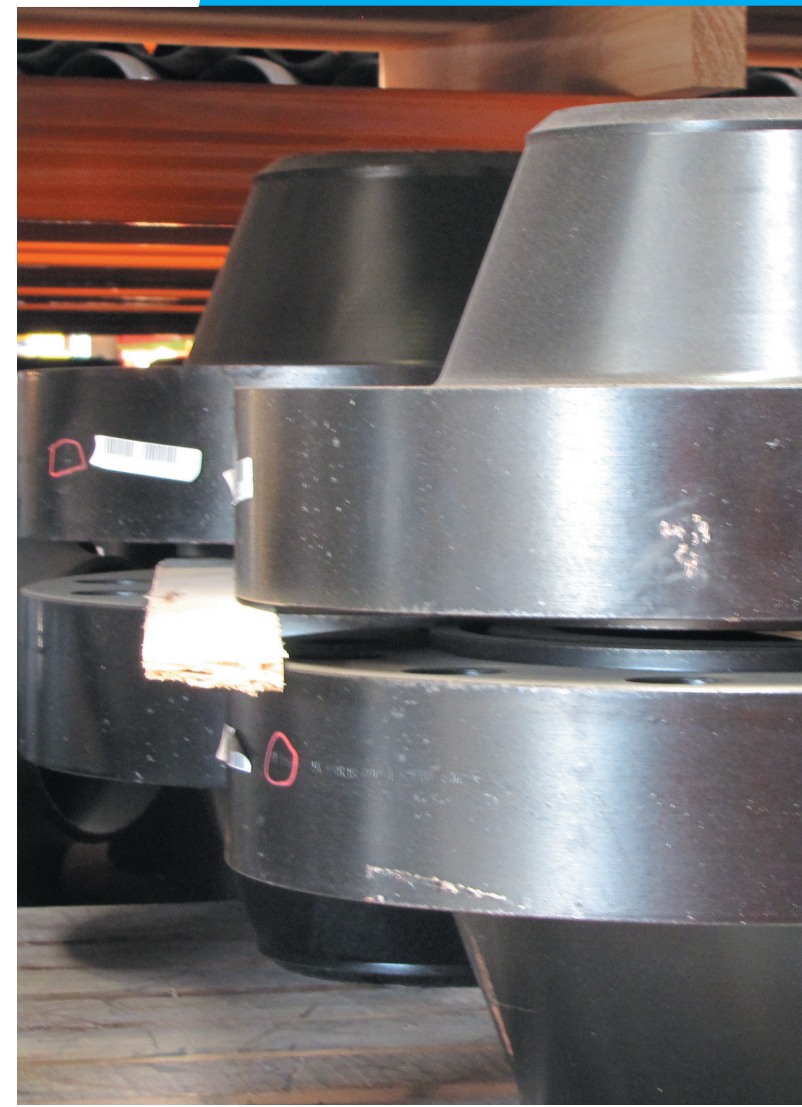

Fittings

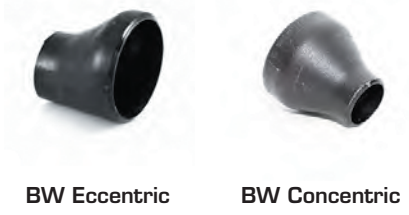

Elbows forged and mandrel bent, short and long radius, 180 bends.

Pipes NZ specialise in low and high pressure fittings, tees, reducers and elbows and hold one of the most extensive inventories of fittings in New Zealand. We offer numerous designs of both weld type and bolt up tees, reducers, olets and a variety of forged pipe elbows with differing angles.

Reducers
